

## Application for unmetered supply (including streetlights)

This form is for single-phase unmetered supply applications where the maximum load does not exceed 4.8 kilowatts.

Help us process your application quickly by ensuring all relevant documents are attached. A **site plan** needs to be included with all applications. Other documents will depend on the type of application you are making and are listed below.

Mail your completed application to: Western Power Connections, Locked Bag 2520, Perth WA 6001, Fax: 9225 2073 or Email: [works.admin.general@westernpower.com.au](mailto:works.admin.general@westernpower.com.au)

For information about this application call 13 10 87.

**You have two options for completing this work:**
**Option 1. Two stage desktop estimate and design/quote**

This is the standard option for customers and involves two stages:

1. A free desktop cost estimate providing approximate costs for the work. This will be sent to you, by mail, within two weeks of your application being received.
2. After accepting the estimate and proceeding to a detailed design and quotation, you are required to pay a \$1,500 design fee (non-refundable, including GST), which is deducted from the final cost. The detailed design and quotation will be sent to you within four weeks of receipt of your acceptance and design fee.

**Option 2. Fast-track estimate bypass**

Customers may bypass the estimate stage and proceed straight to a detailed design and quotation. For this option, you are required to pay an upfront \$1,500 design fee (non refundable, including GST). The detailed design and quotation will be sent to you within four weeks of receipt of your acceptance and design fee. The design fee will be deducted from the final cost.

Note: if your project is technically complex and/or of a larger scale, Western Power will apply cost-reflective design fees. We will contact you if this is the case.

Please indicate your preference below:

Option 1. I require an estimate only at this stage.

Option 2. I choose to proceed straight to a detailed design and quotation and I understand I will be invoiced the \$1,500 design fee (non refundable GST inclusive).

Purchase order: \_\_\_\_\_ (if applicable)
