

Reconnecting with Ellenbrook

As part of our commitment to Ellenbrook residents, we are pleased to provide an update on the progress of our cable replacement project.

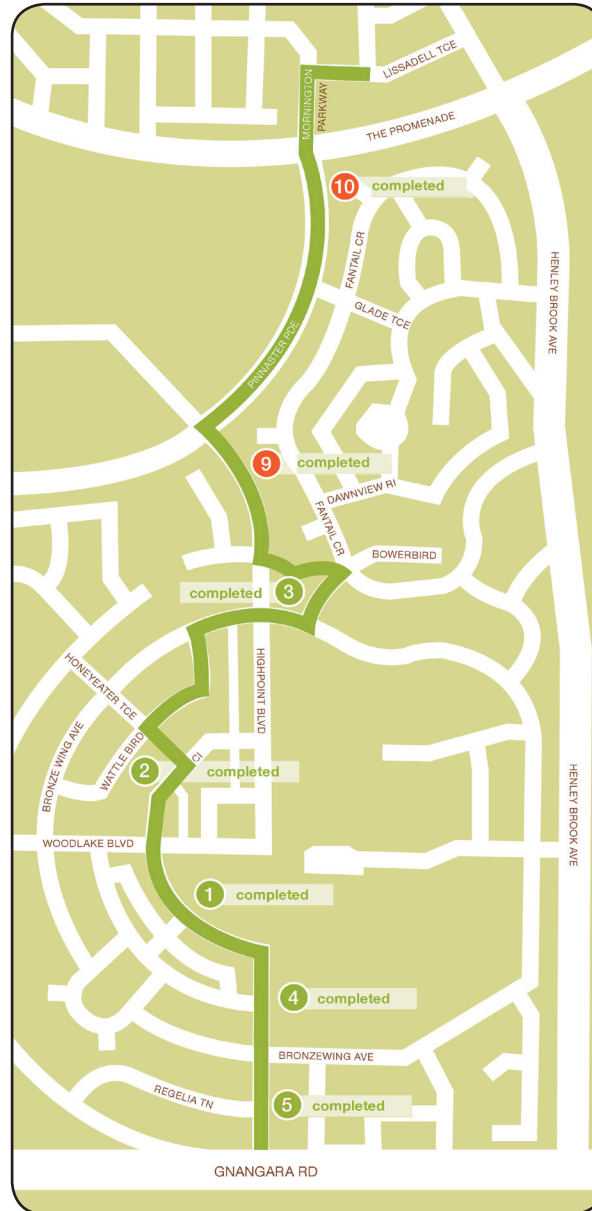

The map shows a green line where the work has been completed.

The blue lines show where new underground cable will soon be installed. We will always try to let you know in advance if this work will affect your power supply.

We are pleased to inform our customers that all stages have been completed except stage 8.

We are still experiencing delays with this section due to access approvals around the gas pipeline near Vancluse Drive. We hope to have this completed by mid to end of June, and will keep you updated with the progress.

If we can assist you with any further information, please call our Ellenbrook Hotline on 6211 9711
