

Environmental Policy

Our Policy Statement

Western Power is the principal electricity transmission and distribution business in Western Australia. We are committed to operating the network safely, reliably and efficiently, delivering electricity in a manner that meets community needs and expectations.

Accordingly, business activities will be planned and conducted to minimise and where possible avoid adverse effects on the natural environment and social surroundings for the benefit of current and future generations.

Our Environmental Objectives

In implementing this policy we will:

- ensure that environmental considerations form part of our business planning and decision-making processes;
- promote a culture of responsible environmental management;
- protect the natural environment and social surroundings, preserve biodiversity, prevent pollution and minimise waste;
- comply with applicable environmental laws and aspire to higher standards within the business;
- continually improve our environmental performance;
- communicate openly and transparently with stakeholders on environmental matters; and
- engage the community in environmental initiatives aligned with our business values.

Our Environmental Responsibilities

Environmental leadership and adherence to the Western Power Environmental Policy is the responsibility of all Western Power employees and its contractors, suppliers and vendors. The Managing Director and Executive Management are accountable to the Board of Directors for the development and implementation of this policy.

Doug Aberle Managing Director
