

# ACTION PLAN

Your school practices fire drills so you all know what to do if there is a fire. It's part of your school's action plan.

Your task is to identify dangers you may be faced with in areas where you play.

Use the action plan below to record any dangers and in the right hand column record what action you will take to stay safe. Try to list as many as you can for each area you like to play.

	Danger	How you will stay safe
School playground		
In your back garden		
At the park		
Along your street	<i>E.g. powerlines.</i>	<i>I will always kick my football away from powerlines.</i>
<i>Can you think of other places you play?</i>
